

HIKING & MAINTAINING ANDROS' FOOTPATHS

INVITATION TO THE GRAND OPENING OF THE FOUREI MILLS ROUTE !

فروUSEI MILL VILLAGE

We have finished clearing and way-marking route number 14-with the help and support of numerous people- so now we can hike together!

- We start from the chapel of Agia Irini Chrysovalantou close to the road junction leading to Sidontas (on the main road from Gavrio to Amolohos).
- We descend towards the beautiful ravine and mill village of Frousei.
- We follow the way marked route passing by the impressive ruins of the mills and small waterfalls

With our steps we are helping to keep the path open! Along the way we may also cut back any vegetation which has grown back to block the path.
